

*In the Claims:*

1. (Currently Amended) A waterproof bag comprising:  
a woven base component;  
at least one waterproof film adhered to an entire inner surface of the  
base component; and  
a photo film adhered to an outer surface of the base component to  
produce the waterproof bag.
2. (Original) The waterproof bag of claim 1, wherein the base  
component is weaved with synthetic resin yarns.
3. (Original) The waterproof bag of claim 1, wherein the waterproof  
bag has a cylindrical configuration.
4. (Cancelled)
5. (Currently Amended) The waterproof bag of claim [[4]] 1, wherein  
the photo film is adhered only on certain portions of an entire outer surface of  
the base component.
6. (New) A waterproof bag comprising:  
a woven base component;

at least one waterproof film adhered to an inner surface of the base component; and

a photo film adhered only on certain portions of an outer surface of the base component to produce the waterproof bag.
